# PSYCHO PAC

## 'HE WANTS TO TAKE US BACKWARDS'

President Joe Biden had a bad debate, no question. The media pounced, suggesting diminished capacity due to age!! The president then gave a series of interviews in which the American people saw him cognitively clear and responsive, albeit low energy.

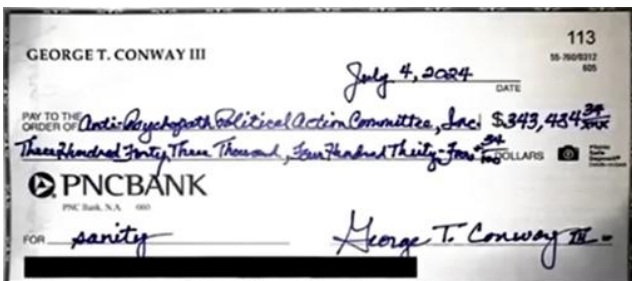

"It's about how old your ideas are," he told the American people. "He (Donald Trump) wants to take us backwards. Look, I am old, but I've gotten a lot done. In addition, I'm not a criminal. I don't lie. I haven't raped anybody. I'm not a convicted felon. I make mistakes sometimes."

Still, mainstream media stayed on the president's cognitive health until, for good or bad, growing doubt among his colleagues and the public bade him step out of the race, for the good of the country.

## EDUCATING THE AMERICAN PEOPLE ABOUT TRUMP'S UNFITNESS

Meanwhile, we have a genuinely mentally unwell person vying for the most important job on the planet, and what are the mainstream media doing? Instead of treating Trump like a criminal, insurrectionist, mentally unfit, and a clear and present danger to our democracy, they give him equal (or more) time to spew lies that routinely go unchallenged, and are thereby too often assumed true by consumers.

Well, change is in the air. If the ratings-hungry mainstream media are not taking seriously the existential threat that is another Trump term as president, there is a new political action committee eager to take up that mantle. In fact, the new PAC is already hard at work blasting Trump's unfitnes for office.

"Donald Trump's problem is, he's just nuts!" asserts Republican attorney George Conway, who with his own money on July 4, founded a political action committee he calls Psycho PAC. The memo line on his \$343,434.34 check reads "sanity".

“Donald Trump is not simply eccentric or odd in a good way. He is mentally unwell in a dangerous way,” says Conway. “He is indeed a pathological malignant narcissist at a level we have never before seen, who is also a sociopath. This country is too important to be turned back over to a madman.”

Psycho PAC’s mandate is to drive home to the American people the former president’s flagrant criminality, and to work with mental health professionals to educate voters about the “grave danger” he poses to our country.

## THE DANGEROUS CASE OF DONALD TRUMP

Recall the 2019 book, [\*The Dangerous Case of Donald Trump: 37 Psychiatrists and Mental Health Experts Assess a President\*](#), overseen and edited by Forensic Psychiatrist Bandy X. Lee, MD, President of the World Mental Health Coalition.

The book describes Donald Trump’s pathology as “gravitating toward violence and destruction”, and labels him a “severely disturbed malignant narcissist with psychopathic and authoritarian traits”.

It explains the enigma of Trump’s popularity in large swaths of the population as “narcissistic symbiosis”, referencing “developmental wounds” that make a leader-follower relationship magnetically attractive.

“The leader, hungry for adulation to compensate for an inner lack of self-worth, projects grandiose omnipotence—while the followers, rendered needy by societal stress or developmental injury, yearn for a parental figure. The ripple effect is a shared psychosis or induced delusions, infectious symptoms that go beyond ordinary group psychology”.

The book’s contributors explain that “When a highly symptomatic individual is placed in an influential position, the person’s symptoms can spread through the population through emotional bonds, heightening existing pathologies and inducing delusions, paranoia and propensity for violence—even in previously healthy individuals.”

## TONGUE-IN-CHEEK BILLBOARDS KICK OFF THE CAMPAIGN

Psycho PAC has already installed tongue-in-cheek billboards, shown adjacent, thanking Republicans for nominating a convicted felon, a criminal, a psycho.

“Donald Trump is not simply eccentric or odd in a good way. He is mentally unwell in a dangerous way,” says Conway.

“He is indeed a pathological malignant narcissist at a level we have never before seen, who is also a sociopath. This country is too important to be turned back over to a madman.”

## TRUMP'S CULT LEADER CHARACTERISTICS

Conway says the PAC intends to demonstrate Trump's many cult leader characteristics, and point out the indicators in his pathology:

- The incessant lying (“stop the steal”);
- The misogyny (“grab’em by the p....”);
- The racism (“very good people on both sides”);
- The need for narcissistic supply (“I need loyalty; I expect loyalty” although it’s not returned, least of all to his own country, his party, or his vice-president—take note Mr. Vance);
- The authoritarianism and love for dictators (“we fell in love”);
- The criminality (4 indictments on 88 counts in 4 courts; conviction on 34 felony counts; tax evasion; civil fraud and sexual assault convictions); and
- The endless hunger for revenge. (“I am your retribution”).

### ‘NO REMORSE; NO EMPATHY; NO CONSCIENCE’

Conway began sounding the alarm on Trump in 2018 while he was married to Kelly Anne Conway, one of Trump's devoted aides, who continues lying for him to this day. The couple is now divorced.

Conway is so keen on keeping Trump out of the White House that he contributed more than \$1 Million to Joe Biden's reelection bid. The attorney has now retired from his law practice to focus primarily on the upcoming presidential election.

“We’re talking about whether or not a narcissistic sociopath who has no remorse, no empathy, and no conscience is going to have control of the world’s second largest nuclear arsenal.”

The pack is inviting \$34 donations to the cause, which we note resembles the odd number sequence on his check. No doubt, you can figure it out. Visit [psychopac.org](https://psychopac.org) for more information.
